Western Downs Regional Council has awarded Aquatec Maxcon the Design and Construct Contract of a new Waste Water Treatment Plant at the existing Wandoan site for a combined flow of 450m^3/day.

The upgrade is required to meet the projected potable water demand of the township of Wandoan. The increase in demand is driven by Xstrata Coal Queensland.

The new Treatment Plant will consist of a new Activated Sludge Treatment Plant with Inlet Works, Grit Channel, Septic Waste Pre-treatment System, Aerobic Solid Digester, Solid Dewatering Equipment, Chemical Dosing System, MCC and associated treatment infrastructure.
